- 1. You do not have a consistent strategy for backing up your company's computers and servers.**
Not backing up your computer systems opens the door to liabilities and huge losses in revenue and reputation.
- 2. You want a reliable offsite backup solution that works.**
Our online backup service combines market leadership in storage solutions with award-winning software so you enjoy worry-free backup.
- 3. You don't have months or years to roll out a backup solution.**
We can deploy our service to thousands of users in a fraction of the time it takes to build traditional backup solutions, saving you time and resources.
- 4. You aren't willing to compromise security for convenience.**
Our service uses the highest security standards and offers customers the option of added security by choosing a personal encryption key. All files are transferred using an SSL encryption.
- 5. You want a set-and-forget backup solution that you don't have to constantly monitor.**
We can schedule your backups to run daily, weekly, or monthly, or as frequently as every two hours for near continuous backup.
- 6. Your staff is already overextended.**
Stop wasting time and money with hardware, stacks of CDs, and traditional tape backup systems. Our service frees up your in-house resources for productive use in core revenue-generating activities.
- 7. You don't want to pay for software you aren't using.**
Our online backup service is flexible. We'll help you determine the best solution for your business and eliminate excessive costs.
- 8. You want a complete backup solution without the hassle.**
A sound backup strategy involves both a local and an offsite copy of your data. Our service delivers both for Windows users.
- 9. You're tired of the headaches associated with backing up remote and branch offices.**
We manage multi-user environments easily and efficiently so you don't have to.
- 10. You have a limited budget to spend on backup.**
Our backup solutions are affordable, with no hardware to purchase and little management required by you.
